

Name: _____

Period: _____ Date: _____

BALANCING EQUATIONS WS_L

Balance the following by adding coefficients.

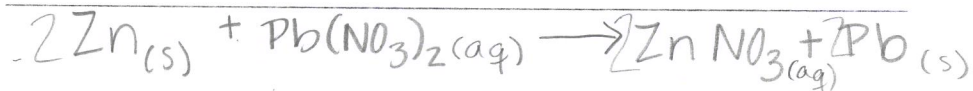

- a. 2, 1, 2, 1
 b. 2, 2, 1, 1
 c. 2, 1, 1, 2
 d. 1, 2, 1, 2

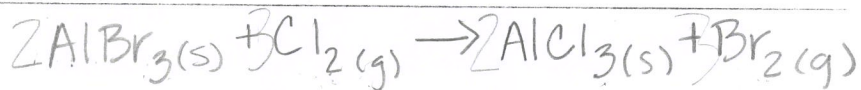

Write the formula and balance.
 8. ^{Pb^{2+}} solid zinc + ^{NO_3^-} aqueous lead (II) nitrate yields aqueous zinc nitrate + solid lead

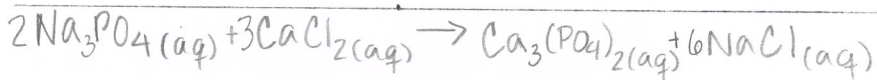

9. ^{Al^{3+}} solid aluminum bromide and ^{Cl_2} chlorine gas reacts to form solid aluminum chloride and gaseous bromine

HOFBRINCL ← Pairs

10. aqueous sodium phosphate combines with aqueous calcium chloride producing solid calcium phosphate and aqueous sodium chloride

11. a heated solution of potassium chlorate yields solid potassium chloride + oxygen gas
